DISADVANTAGED BUSINESS ENTERPRISE ELIGIBILITY REVIEW

Congratulations! Your eligibility to participate in North Dakota Department of Transportation (Department) federally-aided construction programs and other federal-assistance programs as a disadvantaged business enterprise (DBE) has been reviewed and approved. Documentation to support your continuing eligibility must be received through the NDDOT Certification & Compliance System 12 months from your anniversary date May 2, 2024.

Under 49 Code of Federal Regulations Part 26 (CFR) it is your responsibility to maintain your certification. CFR requires your firm to:

1. Complete and upload the necessary information using NDDOT's Certification & Compliance System. <https://DOTND.DiversityCompliance.com>.
2. Immediately notify the Civil Rights Division of any material change in your business.
3. Comply with Department requests for information pertaining to your firm's continuing eligibility.
4. Abide by the applicable NDDOT DBE Special Provision when bidding/quoting on Department jobs.

Special Provisions are located at: <https://www.dot.nd.gov/divisions/civilrights/dbeprogram.htm>

Requesting Certification in Additional Services:

You must apply in writing to be considered for additional services other than those for which you are certified. Requests for expanded services must be approved by the Department prior providing quotes on these areas as a DBE. Failure to do so may be cause for sanctions to be invoked, up to and including decertification.

For assistance in the use of the Certification & Compliance System contact dotnd@diversitycompliance.com

If you intend to locate work or generate sales in North Dakota, it is very important that you sign up for the Department's ListServ. NDDOT circulates notices of project changes, wage rates, requests for bids, and other important DBE Program and construction project information through the Civil Rights Division's ListServ. Sign up for the ListServ: <http://web.apps.state.nd.us/itd/listserv/maint.htm?reqid=DOT-CRO&request=AgencyListServEnterEmail>
